

VERY SPECIAL PRACTICAL TRAINING ON HEALING

For the first time, the particular
New Science of Healing / Neo-Naturopathy / Tropical Healing
trainings are joined and opened to public,
to anyone, whatever their ages, background, diplomas, specialties.

**Please read throughout this text
for the sake of your Body, Mind & Soul.**

The trainings are offered in English or French.

You are at **point A** and you know quite well
that you have to go to **point B**.

All possible roads may require different levels of
discipline, dieting, surrendering, loss, deprivation...
you know, all the tough things to do to be and to get better!

BUT YOU KNOW YOU HAVE TO GO TO POINT B ONE DAY.

So, why not do it in the shortest time, and then,
pass to more fun things, more creativity,
more valorization,
more joy,
more love,...
MORE.

Ask yourself :

Why do I accept to get high, then fall and even step backward?

Why do I refuse to do things that I know will get me healthier?

Why do I kept falling into bad living habits?

Why I kept seeing "friends" that only kept me in hell?

Why I am refusing Health & Happiness?

Why do I postpone?

THE BASIC PRINCIPLES

Illness is a joke. Illness is the most lucrative business. Illness means dependency to a sorcerer. Illnesses are only names given to symptoms. Healing is in no way the suppression of these symptoms.

Every illnesses should be treated on 3 levels:

Physical, Energetical and Metaphysical.

$E=mc^2$ means that matter « m », can not be moved « c », if there is no energy « E » (if $E = 0$, whatever « m », $c = 0$).

This simple scientific equation applies as well to the human body.

If the Energy is slowed, the displacement of matter is slowed.

All illnesses are possible only because there are "foreign matters" that are lodged inside the body. Foreign because they do not belong to the body, and never will he be able to use them.

On the **Physical level**, one must help his body to expulse the toxins.

But, matter is moved by Energy only, this is the **Energetical level**.

You must learn the ways to acquire, unblock and stimulate Life Energy, the ultimate Force behind any healing processes.

And at last, the **Metaphysical level**. The Energy flows are directed by your thoughts, creating patterns that influence the movements and deposits of matter (that is responsible of the forms of the body). So, you've got some specific **thoughts** that direct **Energy** in specific patterns, that move **matter** accordingly. Permanent healing is **only** attained through the comprehension of this Trilogy.

If you deal only on one level, if you try to "heal" someone by one "magical" (and lucrative) therapy (or colorful packaged products), you will have only a temporary relief. Sooner or later the "illness" will surface, or worse, if the internal accumulation persist, the next illness state will be more important: a more "dangerous" illness and of course a more lucrative one for any actual healing sciences or therapies. **The New Science of Healing**, the **Neo-Naturopathy** and the **Tropical Healing** are "free", powerful, natural healing processes. Basically, no need of chemicals, machines, electronic equipment, pills, herbs, recipies... **Let Nature's Energies flows freely through your body and move away the undesirable, the unusable.**

ILLNESSES STATES

What medical "science" call *illness* is in reality **healing**. Illnesses are only names that a very lucrative (and dominative) "industry" tagged to symptoms. Symptoms are only physical reactions that the body reveal in some trials to rid himself of internal toxic matter.

The real Healing is to help the body to eliminate, to expulse **outside** everything that he can not use, and that he will never be able to use. That's why we call them foreign matters, they do not belong to the human body. Whatever the source of those molecules, their prolongedly stay inside the body transforms them into a toxic state (by some simple natural processes), commonly named toxins.

To purify the body while living in a city is impossible. Stop luring yourself, you can not change your habits in your actual reality. You must get out of your normal life environment. You must take distance from those highly publicized craving intoxicating products. But best, you need LIFE ENERGY to move the crap out, and LIFE ENERGY to move the natural nutriments toward the needed cells/tissues/organs. Tropical Healing is the most powerful approach because of the surrounding of Nature's Energies (air, fire/sun, water and earth/food). Every available sources of Life Energy will be yours, always present, to help the inner processes of purification.

MANY TEACHINGS WILL CONFRONT YOUR PAST SOCIAL,
FAMILIAL, SCHOLAR, PROFESSIONAL BELIEVES AND
PROGRAMMATIONS ABOUT ILLNESS AND HEALING.

Very incredible Truths will be revealed to you about drugs, remedies, about New-Age therapies, little pills, magical medicinal plants, spiritual healers... none of them heal !!! They all work in getting rid of the symptoms. The ONLY physical healing is realized by helping your body to **expulse** the futile, the toxic. And there IS ONLY ONE thing that is needed to do that and IT IS LIFE ENERGY. Life Energy is THE POWER OF HEALING. AND IT IS FREE !!!

And don't be fool that fasting or changing your diet will do any good for you. Again, it is only well endorsed by theories and beautiful (and expensive) therapists, but sadly for you, turn out to be only temporary results (thus creating more guiltiness from failure).

TRAININGS

This training is one of a kind because as you learn, you will be able to practice and testify of the incredible transformations of your organism and the ones of your co-attendants.

As those trainings will be THE experience of your life, you will be a living proof of Nature's powers, and then be able to inspire all the people that you will cross, that will be placed on your Path for you to help them to "cure" themselves. All together, in a respectful permanent process of Purification, we will generate the Purification of this Planet. The Return of Eden is possible. Many instructed persons will be inspired to create an *Environment for Divine Evolution in Nature* (E.D.E.N. – documentation on demand).

By purifying your body and reprogramming your mind, incredible amount of creative Energy will be liberated. The binding of your Mind and Spirit will be so powerful that at first it will be difficult to your mental (ego) to realize the immense personal potential that you have by taping easily into Nature's energies.

In the basic training, you will **learn to exploit all the possible sources of Life Energy**. Learn the best ways to help the body to reestablish the optimal functioning of the only **four (4) exits** which he was created. You will understand the importance of RESPECT of the only **two (2) entries**: the mouth and the nose.

Part of the training is also to manage to recycle your wastes (offering them to Nature). Cleaning of your surrounding is a daily chore.

The first week will be a basic very intensive training. Upon those 6 days (7th day off or free or optional or personalised to a specific group of persons) you will have a very precise idea if you want to pursuit to the whole lunar cycle training. If not, well, half of your payment will be refund to you and you will have 3 weeks to enjoy Costa Rica's Pura Vida !!!

Upon the lunar cycle training, you will be sure if you have to follow-up to the 3-month certification program. All certified persons will be able and encourage to start his/her own Purification Center (in countries that permit it, and tropical). The Certification Program detail is available upon demand and to training's attendees only.

PURIFICATION

Powerful Purification Techniques will be taught and practiced. The simple understanding of the natural processes behind them is very important in the motivation to practice them (easily and joyfully on a regular basis) and the ease of their results.

Permanent results are only possible if there is understanding. Intoxication (illness state from ignorance) follow the same patterns, but each individual do not store the same toxins, and not in the same quantities, and not at the same places. In order, each participant will understand which of the 40 purification techniques he/she must practise (and when). No need of a therapist, or a guru. Pure Logic. The Purification Techniques that you will learn and experience are classified by Nature's Elements : earth, water, fire, air and ether. Part of their basis is from Dr. Randolph Stone's Polarity Therapy : where there are 5 major Energy circuits in the body... flowing through the five fingers. You will learn also that all illness states are linked to a lack, excess or blockage of one or more of the five Energy currents.

You need a break in your life to restore a certain level of balanced physical state, free of pains and sufferings. In a healthy body, Energy flow freely and intensively, giving the mind an incredible power of materialization. All your dreams, accordingly to your Divine Plan (what is your main purpose in this incarnation - spirit evolving through a physical body) will be more rapid to materialize.

But to do so, to have the drive to, to be inspired to, motivate to force your body back on the track, learning is primordial and purification is a must. When your conscious is forced to record what your unconscious know well about the nature of your organism, powerful, rapid and pleasant transformations occurs in and out of your body.

In any purification processes, what your body expulse is no more good for him. And in that option, one must be always conscious of the importance of cleaning. You are cleansing your interior, but you need to don't let the evacuations back in. You will be ask to take as much showers you can each day, to swim in the pond... change and rinse your cloths to.

NUTRITION

Part of the training is of course about Nutrition. The powerful nutritional values of Raw Food Dieting, of Mono-Dieting will be explained in details. Cravings will be demystified, giving you the freedom of them. You will learn why ALL diets don't work. You will be amazed to discover why a vegetarian diet is now said to be harmful and impossible to the human body. The majority of people shifting to a vegetarian or raw food diets are not able to maintain those natural habits ONLY because their body was not prepared to do so. If you do not first PURIFY your body to a certain level, he can not ASSIMILATE natural living nutriments. To NOURRISH THE BODY is to provide each individual cells with basic nutriments.

NUTRITION is then the process to pulverize food ingested for the nutriments to be able to pass through the membrane's cells !!! This is nutrition... not stuffing yourself with tofu, or organic peanut butter on a slice of whole wheat bread at night in front of the television or computer monitor...

If nutriments are slowed or blocked (by foreign matters lodged inside everywhere) in their journey to nourish the cells, they are transformed in some toxic wastes themselves! That, even if it is raw, organic, or freshly out of a 400\$ hi-tech juicer.

During the trainings, you will feed your body primarily with fruits, then leaves/flowers (nourishing and cleansing), and finally some veggies and sprouts. As your purification progress, you will develop an instinctive way of nourishing yourself. Each day, each moment between sunrise and sunset, your body will inform you of his needs, « attracting » the very needed nutriments. There is no « bad raw-food dieting », only unpurified body with bad eating habits.

Nutrition is also breathing. Don't forget, you have only two entries to satisfy ALL your organic needs. You will learn to practice conscious breathing, process that will follow you for the rest of your life!

Nourishing your body is also giving him some exercises for helping the proper functioning of his components. You will realize that your daily life give you a lot of exercises sessions... as long as you do them consciously, that you are present to the muscular actions.

LIVING CLOSE TO NATURE

The fastest you purify your body (in the shortest time, .A → .B) the easiest it is to shift to a natural way of living. The fastest way is when the displacement of toxins are faster. $E=mc^2$. For « c » to rise « E » must rise. Nature offer it all in abundance. Living close to Nature means to be close all the time to the Elements. Your "normal" sedentariness in the society do not permit a contact with earth, provide "polluted" drinks, use artificial heating (and cooling), processed food and force breathing "industrialised" air.

Living in cities, people lack of Life Energy, slowing the displacement of the toxins toward evacuation, making the process of "healing" painful and impossible to attain a comfortable state.

When you are staying in a five-star hotel, on spring beds (filled with strangers' germs and energies), with carpet, air conditioning, TV, fluorescents... your body is not stimulated toward purification.

By living in a simple manner, close to Nature, you will reinforce all your systems. Let's Nature Energy traverse every parts of your body and you will be amaze of the healing power you always had.

During the months of October and November, there is frequent rain. This does not affect in any way the training, on the contrary, the water principle is highly important in the purification process. In a tropical country, rain is warm.

Bring only natural fabric clothing (cotton, linen, silk, hemp). Pareos will be available for sale. No perfume, only essential oils (available on site). No chemical insect repellents neither. Only biodegradable soaps and shampoos please. We recommend also only coconut oil for massage and there will be plenty to use.

No cigarettes, no alcohol beverages during the training (and they will be difficult after the training...). No chemical drugs or medication allowed.

One of the helpers of getting rid of the past (and getting ready for stepping in the future) are the feet. Good to ground yourselves by walking barefoot. Good to scratch the feet to get back all tender skin. Gardening for his part, will help you more in the circulation in your arms than for feeding.

LODGING

We recommend you to bring brand news: 10 x 10 tent, inflated mattresses and a latex pillow. We will provide exclusive sleeping hammocks which are the optimal sleeping "beds" for rejuvenating. The tent is for storing your things, rest, write..., protected from all insects. Before sleeping in your tent, you must try to sleep in our hammocks.

You will not come here to numb your body and mind, but to stimulate their natural optimize functions. The lodging is clean but rustic, because there is no lodging. Your tent and hammock will be protected from the rain and sun. You will be either sleeping, resting, bodyworking, exercising, showering, eating, edening...

During the month, your sleeping patterns will change a lot. The purification processes continues at many higher levels during your sleep. Freeing your body of foreign matters, that do not belong to you and was creating turbulences, permit the Energy to circulate more freely, along his natural patterns.

At the molecular/atomic/Energetical levels, there lies the Truths.

No marketing. No package for sale.

Upon your level of Energy, you will be able to adapt your sleeping environment. Sleeping close to Nature enhance highly your vibrational rate, that is the circulation of Life Energy through your cells. This is partially true with open room for clean breathing during sleep. At any moment, you can have the breeze caressing your skin.

Synthetic mattress, metal springs, carpet, closed bedroom, electric outlets, all slow down and perturb your Life Energy, slow the rejuvenation (this during mostly the third of your life!)

Living in open air is a must, for not breathing-in the invisible shit (yours and others) that go into your bloodstream (thus more difficult to expluse, needing more Energy to process them...). So you are not coming to the training as a vacation, or a curiosity, or to be "IN".

All the sounds are part of the learning. There are just Energy, waves, frequencies, cycles, whatever their source, time or style. Just surrender to sound, to voices, to stories, to simplicity.

Insects and animals will be always part of the training and healing processes. Survival kits on site. Hospital nearby ;-)

LEARNING SHARING TEACHING

All attendants will be able to share their knowledge, in public, in private or recorded.

Because of the large variety of people taking the trainings, lessons will be personalized for the group. Yes, many partial teachings will be known by the attendees. But what is very rare, is to make the link between them, to create a whole solid structure that can explain everything, in a manner easily understood by everyone (mainly because they are all based on observations of Nature's processes). The power of an healing system is to be able to see "all" the causes and processes in action.

All the teaching are very simple to understand by everyone, no complicated terms used, no need of any experience. But for someone simplicity is difficult to accept. They are so prisoner of complex mind assemblies to different models.

You even have no need to take notes. Just be present. Courses documentation will be given (booklets).

You just need the desire (or urge) to heal yourself for good, to help others and the planet Earth. Please don't miss the chance of your life to be tune with Nature, with your Divine Plan.

Every night there will be a 2-hour group session of sharing (optional, but highly recommended).

This is a good time to put pieces of the puzzle together. By the help of other testimonies and by expressing yourself, thing become clearer, and you become stronger in your learning and beliefs.

The more you receive, the more you will need to share. It is quite important to express your comprehension, your integration of the patterns that was creating troubles in many aspects of your reality. Since you understand the « why » and « how come » of your past negatives experiences (like illnesses, addictions,...), there is not more guilt about it. To share your understandings reinforce the new seeds planted in your reality.

Sharing can also be good to be written, either for personal use, or for publication. Also, for some that have some confidence, video recording could be a creative way to help others.
